Keysborough VIC 3173

The Supreme Drape fabric is unique

This purpose-designed trilaminar fabric offers:

- an absorbent layer
- an impermeable layer
- a patient comfort layer.

The fabric has excellent barrier properties to prevent strikethrough of airborne and blood-borne bacteria. It is both drapeable and low linting.

Additional features for high level performance include:

- Velcro line holders
- armboard cover adhesive
- integrated pouches of various sizes
- custom made to your specifications.

These drapes meet or exceed EN13795, and they meet fire retardant standard CPSC 16 CFR Part 1610.

The Azure Minor Procedure Drapes

- A comfortable fabric combined with a PE laminate
- Appropriate for most types of minor procedures.
